The Alpha Industrial Flatbed Series 7 Press is available in two machine sizes with options for single table configuration, this pneumatically operated heat press can be used for printing garment panels and similar larger items.

This robust machine is powered by a micro-processor for control of both heat and dwell accuracy and ease of operation and requires minimal operating space.

The machine is suitable for thermal and low temperature transferring, with reciprocating tables and automatic operation.

**Available in two sizes:**  
 Series 7 - 100 x 120 cm (39 x 47 in)  
 Series 7 - 120 x 170 cm (47 x 67 in)

**Benefits:**

- Reciprocating table offering smaller footprint than typical double table machines
- Automatic or manual machine mode for differing types of production
- Pneumatic pressure control

Specifications	Series 5 - 100 x 120 cm
Power consumption	9.0 kW
Power supply	380 Volts AC (3-Phase)
Maximum temperature	225°C (± 0.5%)
Display timer range	0 - 999 sec
Net weight	782 kg
Weight export packed	1004 kg
Size export packed	180(L) x 190(W) x 180(H) cm
Machine dimensions	271(L) x 165(W) x 155(H) cm
Press pad dimensions	100 x 120 cm
Amps	14 Amps per Phase

Specifications	Series 5 - 120 x 170 cm
Power consumption	18 kW
Power supply	380 Volts AC (3-Phase)
Maximum temperature	225°C (± 0.5%)
Display timer range	0 - 999 sec
Net weight	1114 kg
Weight export packed	1390 kg
Size export packed	224(L) x 215(W) x 187(H) cm
Machine dimensions	313(L) x 211(W) x 155(H) cm
Press pad dimensions	120 x 170 cm
Amps	27 Amps per Phase

Our specially designed microprocessor controllers give accuracy for time and temperature settings, vital with today's heat transfers.

**HEAT PLATES  
SILICONE PADS****Heat Plates - Silicone Pads**

All heat plates are covered with a protective TEFLON® coating and many are made of cast aluminium (cast aluminium heat plates carry a life-time warranty). Quality silicone rubber base pads are used to provide excellent transfer results every time.

**APPEARANCE****Appearance**

To maintain the good appearance of the press all cast frames are powder coated. This proven baking system will protect the machine from discolouration and minor knocks and scratches.

**OPERATORS MANUAL****Operators Manual**

Full specification and operating instructions on all aspects of the machines, electrical diagrams, exploded diagrams and parts list are included with every machine.

**SERVICE - PARTS****Service - Parts**

You can always speak directly to our service department technicians for any technical support or information. We also carry spare parts for all of our machine range.

**ACCESSORIES****Accessories**

We offer a range of detachable tables for various other operations requiring special sized platens for example, umbrellas, bags etc.

**CONTACT****Contact**

We are always here to help.

**QUALITY  
ENGINEERING & SAFETY****Quality Engineering & Safety**

Each press is individually hand-built. All ADKINS machines are built to the highest standards, we use only the best quality components, they are all tested to comply with the various safety regulations from around the world.
