The Beta Maxi Hi-Lift is a high quality, cast aluminium framed, technologically advanced manual heat press. The machine is adapted for thicker items with the inclusion of a longer rear head post, that lifts the head by approx. 25 mm (1 in) to allow for extra clearance when pressing onto thicker items. The Beta Maxi Hi-Lift is supplied with a table that offers a detachable 25 mm block. By removing the block the gap between the heat plate and table is increased, providing 'Hi-Lift mode' for pressing onto thicker items. Switching pressing modes couldn't be easier, with our special Quick Release mechanism, providing for the change of tables and allowing the operator to rapidly change the use of the press within seconds. We also supply optional detachable tables that are available in various sizes for both 'Hi-Lift mode' and 'normal mode' that can also be changed very quickly, and without any fuss.

The swing head operation gives a perfect view of the transfer and garment allowing accurate and easy application, along with safety of operation. Fitted with a unique advanced computerised LED controller to accurately monitor both temperature and time settings. Pressure adjustment is by fingertip control. This press is suitable for both light and heavy pressure requirements.

TABLES:

- Supplied 'normal mode' table: 38 cm x 50 cm (15 in x 20 in)
- Optional table: 15.3 cm x 15.3 cm (6 in x 6 in) - Part No. BMC584
- Optional table: 20.5 cm x 20.5 cm (8 in x 8 in) - Part No. BMC583
- Optional table: 25.4 cm x 25.4 cm (10 in x 10 in) - Part No. BMC582
- Optional table: 30.5 cm x 30.5 cm (12 in x 12 in) - Part No. BMC581
- Optional table: 30.5 cm x 15.3 cm (12 in x 6 in) - Part No. BMC585
- Optional table: 38 cm x 15.3 cm (15 in x 6 in) - Part No. BMC587
- Optional table: 38 cm x 38 cm (15 in x 15 in) - Part No. BMC588
- Optional Umbrella table - Part No. BMC586

HEAT PRESS TECHNOLOGY

INCREASED CLEARANCE

'NORMAL' MODE TABLE

'HI-LIFT' MODE TABLE

FEATURES

- Swing head operation for clear view of working area
- Safety release catch
- Fingertip pressure control
- Cast aluminium construction for strength and durability
- Self adhesive silicone base pad
- Thermal cut out on the heating element shuts off power to the elements if the temperature exceeds 235°C +/- 15°C (455°F +/- 27°F)
- Manufactured and tested to comply with EC safety regulations. CE labelled
- Lifetime heat element guarantee
- 12 month warranty on machine
- Full service/ spares support
- Manual supplied illustrates electrical wiring diagrams, exploded diagram and parts list. Full safety instructions

Specifications

European Machine

Power consumption	2500 Watts
Power supply	230-240 Volts AC
Working temperature	70-230°C
Display timer range	0 - 9.59 min
Machine height open	65 cm
Machine height closed	35 cm
Machine width	51 cm
Machine width, loading	94 cm
Machine depth	89 cm
Machine depth, loading	120 cm
Work area required	110 x 92 x 64 cm
Weight export packed	52 kg
Size export packed	91(L) x 62(W) x 42 cm(H)
Net weight	45 kg
Press pad dimensions	38 x 50 cm
Fuse	12.5 A
A-weighted noise level	<70 dB(A)
