The Studio Mug Press is made for quick and easy use and is ideal for medium production and is produced of cast aluminium for strength and durability.

The Studio Mug Press features an easy to use microprocessor controller for time and temperature accuracy, with simple pressure adjustment and easy loading operation.

The Studio Mug Press is supplied with a wrap around heating element which will accommodate a Ø-80 mm mug and can be supplied with optional elements (at extra cost) to fit a smaller standard element for a Ø-72 mm mug and a smug mug element.

Small standard mug element  
(accommodates a Ø-72 mm mug - Optional)

Smug mug element  
(accommodates a smug mug - Optional)

Large standard mug element  
(accommodates a Ø-80 mm mug - Supplied)

- Supplied large standard mug heat element: accommodates Ø-80 mm mug - Part No. ASM2.
- **Optional small standard mug heat element:** accommodates Ø-72 mm mug - Part No. ASM/2S.
- **Optional smug mug element:** accommodates a smug mug - Part No. ASM2/coffee.
- Wide opening area for ease of placement of Mugs.
- Fingertip pressure control.
- Mechanism to hold Mug in position during transfer.
- Manufactured and tested to comply with EC safety regulations. CE labelled.
- 12 month warranty on machine.
- Full service/ spares support.
- Manual supplied illustrates electrical wiring diagrams, exploded diagram and parts list. Full safety instructions.
- Thermal cut out on the heating element shuts off power to the elements if the temperature exceeds 260°C +/- 15°C (500°F +/- 27°F).

### Specifications

### European Machine

Power consumption	280 Watts
Power supply	230 Volts AC
Maximum working temperature	260°C
Display timer range	0 - 9999 sec
Machine height open	41 cm
Machine height closed	38 cm
Machine width	17 cm
Machine depth	58 cm
Weight export packed	9.5 kg
Size export packed	43(L) x 28(W) x 33.5 cm(H)
Net weight	8.5 kg
Supplied element	Large standard - Ø-80 mm mug
<b>Optional element(s)</b>	<b>See above</b>
Fuse	3 A

Email: [service@aadkins.com](mailto:service@aadkins.com), [sales@aadkins.com](mailto:sales@aadkins.com) • Web: [www.aadkins.com](http://www.aadkins.com)**DIGITAL CONTROLS****Digital Controls**

Our specially designed microprocessor controllers give accuracy for time and temperature settings, vital with today's heat transfers.

**HEAT PLATES  
SILICONE PADS****Heat Plates - Silicone Pads**

All heat plates are covered with a protective TEFLON® coating and many are made of cast aluminium (cast aluminium heat plates carry a life-time warranty). Quality silicone rubber base pads are used to provide excellent transfer results every time.

**APPEARANCE****Appearance**

To maintain the good appearance of the press all cast frames are powder coated. This proven baking system will protect the machine from discolouration and minor knocks and scratches.

**OPERATORS MANUAL****Operators Manual**

Full specification and operating instructions on all aspects of the machines, electrical diagrams, exploded diagrams and parts list are included with every machine.

**SERVICE - PARTS****Service - Parts**

You can always speak directly to our service department technicians for any technical support or information. We also carry spare parts for all of our machine range.

**ACCESSORIES****Accessories**

We offer a range of detachable tables for various other operations requiring special sized platens for example, umbrellas, bags etc.

**CONTACT****Contact**

We are always here to help.

**QUALITY  
ENGINEERING & SAFETY****Quality Engineering & Safety**

Each press is individually hand-built. All ADKINS machines are built to the highest standards, we use only the best quality components, they are all tested to comply with the various safety regulations from around the world.
