How to change a Micro Switch

Replacement/Removal of Micro Switch

N.B. Before undertaking any work, switch off the power supply to the machine and unplug the machine from the electricity supply

1. Remove Rear Cover Plate and 8 screws (pic 1)
2. Disconnect wires connected to Micro Switch (pic 2 arrow-a), taking note of their position for future reference when reinstalling
3. Remove 2 screws securing Micro Switch (pic 2 arrow-b)

Re-installation of replacement Micro Switch

1. Installation is a reversal of removal
- N.B.** When refitting Micro Switch be sure to check that it functions correctly when Heat Plate is moved into the down position and adjust if necessary
