- Manufactured and tested to comply with EC safety regulations. CE labelled
- 12 month warranty on machine (excludes heating element)
- Full service/ spares support
- Manual supplied illustrates electrical wiring diagrams, exploded diagram and parts list
- Full safety instructions

### Machine Info:

The Studio Twin Mug press is manufactured to an extremely high quality, and is a highly advanced mug press that has two independently controlled heating elements. It can be used to apply transfers to most types of mug, money banks, water bottles, flasks and much more.

It is lightweight, portable, simple to operate and requires minimum operating space, so is ideal for environments with limited working space, or for use under a retail counter. It would ideally suit customers with medium to high volume production.

Supplied with two large standard mug elements that accommodate Ø-80 mm mugs. Additional mug elements are available for Ø-72 mm mugs and coffee 'Smug Mugs' that can be quickly swapped via 8 bolts and a wire plug and socket.

### Optional Elements:

Ø-80 mm mug, Ø-72 mm mug and Smug mug
