Machine Info:

The Studio Versa Press is perfect for the end user who has low volume and a limited budget, but wants to create unique personalised photo gifts, mementos and promotional items, all from one machine!

This versatile press will allow you to put high quality transfers onto a range of items such as ceramic mugs, plates and tiles, mouse mats, key rings, t-shirts, caps and much more!

It features a digital controller for time and temperature accuracy, fingertip pressure control and swing away heat plate, to make loading and unloading the heat press simple. It will put you in total control of your production.

Supplied with a t-shirt table measuring 38 cm x 30 cm (15 in x 11.75 in) and the ability to accommodate four optional heating elements.
